- Facilitator/Chair:** Dr James Tunnicliffe, Life Kingsbury Hospital, Cape Town
- Local Speakers:** Dr Martin Forlee, Life Kingsbury Hospital, Cape Town
Dr Bhekifa Dube, Livingstone Hospital, Port Elizabeth
TBC
- Case presenters:** TBC
- Venue:** Crossroads Education Institute
12 Rivonia Rd
Illovo
Johannesburg

Objective:

This program will focus on Chronic Limb Ischaemia (CLI) and Below the Knee (BTK) Disease, and topics will include imaging of the vessels, latest techniques in the area of BTK management and different treatment modalities. Overall, the objective of the program is to ensure improved patient outcomes, and to educate delegates on the latest trends in BTK management.

Audience:

This course is designed for endovascular surgeons of all levels of experience. Fellows, and general surgeons who have expressed an interest in endovascular surgery are also welcome to attend.

Course location and duration: 1.5 days in Johannesburg.

Language: English.

THE PROGRAM WILL INCLUDE:

- Theoretical sessions
- Tips and tricks
- Case discussions

TOPICS COVERED:

Theoretical/Interactive

- CLI and tools to manage Superficial Femoral Artery (SFA) lesions
- Review the burden of BTK disease in South Africa, and associated co-morbidities
- Discuss the different tools available which can be utilised in BTK management
- Explore the latest techniques in BTK disease management, as well as advanced techniques for complex cases
- Discuss how best to ensure optimal patient outcomes

Case Discussions

- Speaker and delegate discussions of cases
